PRELIMINARY AMENDMENT

Assistant Commissioner of Patents Submitted: 01/18/02
Washington, D.C. 20231

Dear Sir:

✓ Please amend the above-identified
application as follows:

✓ In the Claims:

✓ Please cancel claims 1-11.

Please add claims 12-20 as follows:

a' 3/10/89
--12. A motor for an electric vehicle
comprising an armature, a rotor and a motor including a
motor casing for holding an output shaft of the rotor;
a reduction gearing including reduction gears connected
to the output shaft; and a reduction gearing casing
which contains therein the reduction gears and holds an
output section of the reduction gears, and the inside
of the reduction gearing casing being filled with a
lubricating oil, wherein

the reduction gearing is provided between
the motor casing and the reduction gearing casing,

the motor casing includes a hole formed to
be recessed in a direction of the rotor and a holding
